

Entrapment / Tunnel Syndromes

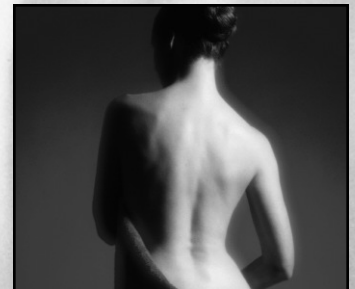

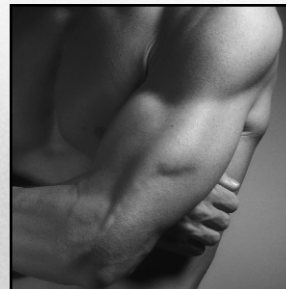

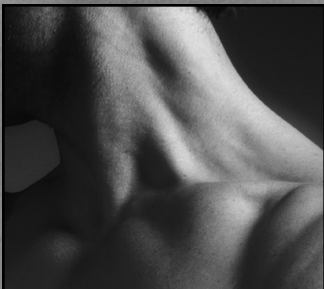

Seminar / Workshop

Compression, damage or impairment of the neurovascular bundle will cause altered sensation and/or motor function for the patient. Sensations of burning, achey, numbness and motor weakness are common signs of a nerve entrapment / tunnel syndrome. This course will explore the types and causes of entrapment / tunnel syndrome and the treatment options for this condition.

**This course combines both lecture notes and hands-on practice.
Class Size Limited to 50 (make your reservations early)**

A knowledgeable, straightforward and prepared lecturer, Dr. McNamee will cover

- Anatomy of the Nerves (Motor/Sensory/Autonomic)
- Types of Tunnel Syndromes
- Neurophysiology of Tunnel Syndrome
- Common Causes of Tunnel Syndrome
- Common Types Found in Athletes
- History of a Patient with Tunnel Syndrome
- Examination and Detection of Tunnel Syndrome
- Diagnostic imaging
- Interpreting the Signs and Symptoms
- Radicular Pain Differentiation
- Outcome Measures of Tunnel Syndrome
- Treatment methods of Tunnel Syndromes
